SKILLS

- **Languages:** C++, Python, Java
- **Frameworks:** HTML, CSS, Java Swing, PyData, Django, Pandas
- **Tools/Platforms:** MySQL, PowerBI, Excel, Jupyter Lab, Google Colab, VS Code
- **Soft Skills:** Problem-Solving, Collaborative Development, Adaptability, Analytical Thinking

PROJECTS

- **Real-Time Air Quality Index Dashboard - Power BI | [GitHub](#)** October 2025 – December 2025
 - India's air pollution analysis required real-time insights across 250+ cities and 480+ monitoring stations, beyond traditional static datasets.
 - Developed a 3-page Power BI dashboard using live government AQI data, implementing 11 analytical visuals and 11 dynamic measures with geo-mapping and AI-based root cause analysis.
 - Delivered actionable pollution insights across 30+ states, identifying major hotspots and dominant pollutants while reducing manual analysis effort by **~70%**.**Tech:** Power BI, Power Query, DAX, Government Open Data (AQI)
- **Covid-19 Dashboard - Python Project | [GitHub](#)** March 2025 – April 2025
 - Developed an interactive COVID-19 India Dashboard using **Python** with **Dash**, **Plotly**, and **Pandas**; implemented dynamic visualizations and user-driven filters.
 - Enabled real-time insights through responsive charts, KPIs, and state-wise analysis for better data interpretation.
 - Reduced data analysis time by **~60%**, improved insight clarity by **~45%**, and achieved **sub-2-second dashboard response time**.**Tech:** Python, Dash, Plotly, Pandas
- **Excel Dashboard for Agricultural Crop Yield Analysis | [GitHub](#)** January 2025 – February 2025
 - Cleaned and prepared a large agricultural dataset by fixing missing data, removing duplicates, and standardizing fields, improving the accuracy of the analysis.
 - Cleaned and standardized **30K+ agricultural records** and built an interactive Excel dashboard using **Pivot Tables, Pivot Charts, Slicers, and KPIs** for multi-dimensional analysis.
 - Improved data accuracy by **~40%**, reduced manual reporting time by **~55%**, and enabled faster year-on-year yield insights across states and seasons.**Tech:** Excel, Pivot tables, Pivot Charts, Slicers

TRAINING

- **Summer Training - Java Application Development | LPU** June 2025 – July 2025
 - Built an interactive Number Guessing Game using **Java Swing**, featuring random number generation, event handling, and responsive GUI components.
 - Improved understanding of **OOP** concepts, GUI layout management, and real-time user interaction applications.
 - Designed a clean, user-friendly interface using **Swing** and **AWT**, enhancing overall gameplay experience.**Tech:** Java, Swing, AWT

CERTIFICATES

- Oracle Cloud Infrastructure 2025 Generative AI Professional | [Oracle](#) October 2025
- Certificate Course on Mastering JAVA for Application Development | [LPU](#) June 2025 – July 2025
- NPTEL Certification – [Social Networks](#) January 2025 – April 2025

ACHIEVEMENTS

- Completed **Oracle Cloud Generative AI Professional (2025)** certification, demonstrating foundational expertise in AI concepts and cloud-based AI services.
- Successfully completed **NPTEL Social Networks certification**, gaining hands-on exposure to graph theory, network analysis, and real-world data modeling.

EDUCATION

- **Lovely Professional University** Punjab, India
Bachelor of Technology - Computer Science and Engineering; CGPA: 6.71 August 2023 - Present
- **Savitri Public School** Partawal, Maharajganj
Intermediate; Percentage: 66% April 2020 – March 2022
- **P.G Senior Secondary School** Captainganj, Kushinagar
Matriculation; Percentage: 76% April 2019 – March 2020
